

Presentation on Views Installation

2/July/2015

Project Ippeisoba

Object Oriented Web design using Ruby

Result

- See the source code in the Git, together with `/^docs\/presentation\/Day13_.*?(pptx|pdf)$/` submitted file.

Next Step

- Presentation on each submitted File.
- This presentation and the source code of which the presentation is based on are the objectives of the course evaluation.
- One of the (hidden) goal of this class is to obtain the skill of utilizing “git.” So, the source code should be uploaded in the public repository.
