OBJECT ORIENTED WEB PROGRAMMING USING RUBY

Day 9: 4/June/2015

Combine Tables

Today's Topics

Review of the discussion, last week.

We have several points to discuss on.
  Relational links, and logical links.

Share our work as we were assigned.

Work Share

MM – Problem Tables

SH – Event Tables

RS – Cause Links between events

IK – Devise-login authentication, user tables

TK – Solve Links between events

Design each tables, and "push" to github, then we "pull" others works, and merge the master.

Try out

Try to register the example shown last week.

Check the screen, and give comments on others' design each other.
